

HCPC major change process report

Education provider	Bangor University
Name of programme(s)	Non medical / Independent prescribing, Part time
Date submission received	22 October 2018
Case reference	CAS-14150-K6D4S8

Contents

Section 1: Our regulatory approach.....	2
Section 2: Programme details.....	2
Section 3: Requirements to commence assessment.....	3
Section 4: Visitors' recommendation	3

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards for prescribing (for education providers) (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

David Rovardi	Independent prescriber
Mandy Hargood	HCPC executive

Section 2: Programme details

Programme name	Non medical / Independent prescribing
Mode of study	PT (Part time)
Entitlement	Independent prescribing Supplementary Prescribing
First intake	01 January 2014
Maximum learner cohort	Up to 40
Intakes per year	1
Assessment reference	MC04081

We undertook this assessment to consider whether the programme continues to meet our standards, following changes identified to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider reported a change to the person with overall responsibility for the programme.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 06 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Patricia Cartney	Social worker in England
Gary Dicken	Social worker in England Approved Mental Health Professional
Ismini Tsikaderi	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Social Work
Mode of study	FT (Full time)
Profession	Social worker in England
First intake	01 August 2003
Maximum learner cohort	Up to 55
Intakes per year	1
Assessment reference	MC03981

Programme name	MSc Social Work
Mode of study	FT (Full time)
Profession	Social worker in England
First intake	01 November 2010
Maximum learner cohort	Up to 30
Intakes per year	1
Assessment reference	MC03982

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider informed us about removing GSCE Grade C entry criteria in Maths and English to be substituted by a written test and a group activity. This change is replacing the certificate based GSCE entry criteria in order for the applicants to prove that they meet the minimum level of background education and to ensure that their knowledge is currently at this level.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Outcome from first review

In considering the evidence provided by the education provider as part of the initial submission, the visitors were not satisfied that there was sufficient evidence that our standards continued to be met at this time, and therefore require further evidence as noted below.

Further evidence required

In order to determine whether the standards continue to be met, the visitors require further evidence for the following standards for the reasons noted below.

We expect education providers to review the issues identified in this report, decide on any changes that they wish to make to programme(s), and then provide any further evidence to demonstrate how they meet the standards.

2.5 The admissions procedures must apply selection and entry criteria, including appropriate academic and professional entry standards.

Reason: The education provider informed us about removing the GSCE Grade C entry criteria for English and Maths and substituting it by written exam and a group activity for testing English, and no replacement for the Maths element. As the education provider does not intend to have a Maths specification in the entry requirements, the visitors were unclear whether, or how the minimum of GSCE Grade C (key skills 2 or equivalent) in Maths is assessed. The documentation provided is clear how the minimum of GSCE Grade C in English is substituted. Therefore, the visitors require further information about the education provider's intent to remove Maths specification in the entry requirements and evidence to demonstrate how they continue to meet this standard with the changes made. The visitors' requirement for further information will also determine that the programme continues to give both the applicant and the education provider the information required to make an informed choice about whether to take up or make an offer of a place on the programme.

Suggested evidence: The visitors require further information about how the entry requirements in Maths are assessed, and evidence to demonstrate how they continue to meet this standard with the changes made.

Section 5: Visitors' recommendation

Considering the education provider's response to the request for further evidence set out in section 4, the visitors are satisfied that there is sufficient evidence that the standards continue to be met and recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 06 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

HCPC major change process report

Education provider	Brunel University London

Contents

Section 1: Our regulatory approach.....	2
Section 2: Programme details.....	2
Section 3: Requirements to commence assessment.....	3
Section 4: Visitors' recommendation	3

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Jennifer Caldwell	Occupational therapist
Natalie Matchett	Occupational therapist
Rabie Sultan	HCPC executive

Section 2: Programme details

Programme name	MSc Occupational Therapy (Pre-registration)
Mode of study	FT (Full time)
Profession	Occupational therapist
First intake	01 September 2007
Maximum learner cohort	Up to 75
Intakes per year	1
Assessment reference	MC04079

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider has proposed introducing a new intermediate exit award 'Postgraduate Diploma in Occupational Therapy (pre-registration)' which will confer eligibility for learners to register with HCPC to be able to apply for registration as an occupational therapist. This will affect the standards around programme admissions, delivery and assessment.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 05 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Tony Scripps	Operating department practitioner
Nick Clark	Operating department practitioner
Ismini Tsikaderi	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Operating Department Practice
Mode of study	FT (Full time)
Profession	Operating department practitioner
First intake	01 September 2014
Maximum learner cohort	Up to 60
Intakes per year	1
Assessment reference	MC03650

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider informed us of a change around a decreased number of modules and how they are integrated into the curriculum throughout the programme.

With this change, there are reduced learning outcomes of the programme. The education provider intends to reinforce inter-professional education (IPE) throughout the programme. Also, the education provider has reviewed the number of assessments and the teaching methods.

It is also the education provider’s intention to further involve service users in the programme as part of the admissions process.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors’ recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 05 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC’s decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Fleur Kitsell	Physiotherapist
Natalie Matchett	Occupational therapist
Rabie Sultan	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Occupational Therapy
Mode of study	FT (Full time)
Profession	Occupational therapist
First intake	01 September 2007
Maximum learner cohort	Up to 79
Intakes per year	1
Assessment reference	MC03651

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider are proposing to rewrite the curriculum and changing the structure of this programme. These changes will affect the programme admissions, programme management and resource, curriculum, practice placement and assessment.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4 Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 06 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Fleur Kitsell	Physiotherapist
Natalie Matchett	Occupational therapist
Rabie Sultan	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Physiotherapy
Mode of study	FT (Full time)
Profession	Physiotherapist
First intake	01 September 2007
Maximum learner cohort	Up to 147
Intakes per year	1
Assessment reference	MC03652

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider has proposed making changes to the curriculum and structure of this programme. This will affect the standards around admissions, programme management and resource, curriculum, practice placement and assessment

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Outcome from first review

In considering the evidence provided by the education provider as part of the initial submission, the visitors were not satisfied that there was sufficient evidence that our standards continued to be met at this time, and therefore require further evidence as noted below.

Further evidence required

In order to determine whether the standards continue to be met, the visitors require further evidence for the following standards for the reasons noted below.

We expect education providers to review the issues identified in this report, decide on any changes that they wish to make to programme, and then provide any further evidence to demonstrate how they meet the standards.

5.2 The number, duration and range of practice placements must be appropriate to support the delivery of the programme and the achievement of the learning outcomes

Reason: From the education provider’s initial major change notification, the visitors understood that that there will be increased opportunities for learners to undertake an international or elective placement as part of the programme. However, when reviewing the documentation submitted, the visitors were unable to find specific information which related to this change. Therefore, they are unable to confirm whether the programme continues to meet this standard, and require further evidence which demonstrates that this standard continues to be met.

Suggested evidence: Relevant information about international and elective placements that demonstrate this standard continues to be met.

Section 5: Visitors' recommendation

Considering the education provider's response to the request for further evidence set out in section 4, the visitors are satisfied that there is sufficient evidence that the standards continue to be met and recommend that the programme remain approved.

This report, including the recommendation of the visitors, will be considered at the 05 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Martin Benwell	Radiographer - Diagnostic radiographer
Beverley Ball	Radiographer - Therapeutic radiographer
Eloise O'Connell	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Radiotherapy and Oncology
Mode of study	FT (Full time)
Profession	Radiographer
Modality	Therapeutic radiographer
First intake	01 September 2007
Maximum learner cohort	Up to 23
Intakes per year	1
Assessment reference	MC03653

Programme name	BSc (Hons) Diagnostic Radiography and Imaging
Mode of study	FT (Full time)
Profession	Radiographer
Modality	Diagnostic radiographer
First intake	01 September 2007
Maximum learner cohort	Up to 90
Intakes per year	1
Assessment reference	MC03656

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider highlighted a series of changes to the programmes. This included changes to curriculum design and delivery, assessment, the number of learners on the programme, practice-based learning and some staff changes.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 06 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

HCPC major change process report

Education provider	Cardiff University
Name of programme(s)	Pg Dip Occupational Therapy, Full time accelerated
Date submission received	17 September 2018
Case reference	CAS-13676-K5R4Q6

Contents

Section 1: Our regulatory approach.....	2
Section 2: Programme details.....	2
Section 3: Requirements to commence assessment.....	3
Section 4: Visitors' recommendation	3

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Patricia McClure	Occupational therapist
Jane Grant	Occupational therapist
Mandy Hargood	HCPC executive

Section 2: Programme details

Programme name	Pg Dip Occupational Therapy
Mode of study	FTA (Full time accelerated)
Profession	Occupational therapist
First intake	01 September 2007
Maximum learner cohort	Up to 25
Intakes per year	1
Assessment reference	MC04033

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider has made changes to the programme and module-learning outcomes to ensure the programme remains current and to increase learner employability. The changes proposed will be applied to the programme from September 2019.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 05 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as ‘our standards’). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Fleur Kitsell	Physiotherapist
Ismini Tsikaderi	HCPC executive

Section 2: Programme details

Programme name	Post Graduate Diploma Physiotherapy (Pre-registration)
Mode of study	FT (Full time)
Profession	Physiotherapist
First intake	01 September 2009
Maximum learner cohort	Up to 40
Intakes per year	1
Assessment reference	MC04067

Programme name	MSc Physiotherapy (Pre-registration)
Mode of study	FT (Full time)
Profession	Physiotherapist
First intake	01 September 2004

Maximum learner cohort	Up to 40
Intakes per year	1
Assessment reference	MC04068

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider informed us of a change to the named person with overall professional responsibility for the programme.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Outcome from first review

In considering the evidence provided by the education provider as part of the initial submission, the visitors were not satisfied that there was sufficient evidence that our standards continued to be met at this time, and therefore require further evidence as noted below.

Further evidence required

In order to determine whether the standards continue to be met, the visitors require further evidence for the following standards for the reasons noted below.

We expect education providers to review the issues identified in this report, decide on any changes that they wish to make to programme(s), and then provide any further evidence to demonstrate how they meet the standards.

3.4 There must be a named person who has overall professional responsibility for the programme who must be appropriately qualified and experienced and, unless other arrangements are agreed, be on the relevant part of the Register.

Reason: The visitor reviewed the evidence provided for this change. From the review of the evidence, the visitor could not see that there was sufficient relevant information about the person's skills and expertise that would be appropriate for the role of having professional responsibility for the programmes and is on the relevant part of the HCPC register. The evidence provided suggests that the majority of experience for the

proposed person is clinical, with some academic experience. The visitor notes that the person is undertaking the e-PG Certificate in higher education. However, as the visitor have not seen information about this certificate, they were not clear whether it includes relevant learning and skills that would be required for the post of programme leader. The visitor read that there will be support and mentoring provided by an experienced senior staff member. However, the visitor was unclear what this support would include, and what the experience of the staff member is to provide support for this role. Therefore, the visitor requires further evidence about the role of the programme leader, that could include a job description for the role, and how the named person is appropriate for that role, and how they will be sufficiently supported.

Suggested evidence: Information about the role of the programme leader, evidence that demonstrates that the named person is appropriate for this role, and how they will receive sufficient support in the role.

Section 5: Visitors' recommendation

Considering the education provider's response to the request for further evidence set out in section 4, the visitors are satisfied that there is sufficient evidence that the standards continue to be met and recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 05 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

HCPC major change process report

Education provider	Sheffield Hallam University
Name of programme(s)	BSc (Hons) Operating Department Practice, Full time
Date submission received	17 September 2018
Case reference	CAS-13719-M1N9X8

Contents

Section 1: Our regulatory approach.....	2
Section 2: Programme details.....	2
Section 3: Requirements to commence assessment.....	3
Section 4: Visitors' recommendation	3

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as 'our standards'). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Joanne Thomas	Operating department practitioner
David Bevan	Operating department practitioner
Rabie Sultan	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Operating Department Practice
Mode of study	FT (Full time)
Profession	Operating department practitioner
First intake	01 September 2015
Maximum learner cohort	Up to 70
Intakes per year	1
Assessment reference	MC04062

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider proposes to make amendments to the programme modules and assessment at levels 5 and 6.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 06 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

HCPC major change process report

Education provider	Staffordshire University
Name of programme(s)	Professional Doctorate in Clinical Psychology, Full time
Date submission received	17 September 2018
Case reference	CAS-13730-V5R1M4

Contents

Section 1: Our regulatory approach.....	2
Section 2: Programme details.....	2
Section 3: Requirements to commence assessment.....	3
Section 4: Outcome from first review.....	3
Section 5: Visitors’ recommendation	4

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as ‘our standards’). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Lincoln Simmonds	Practitioner psychologist - Clinical psychologist
Gary Robinson	Practitioner psychologist - Clinical psychologist
Mandy Hargood	HCPC executive

Section 2: Programme details

Programme name	Professional Doctorate in Clinical Psychology
Mode of study	FT (Full time)
Profession	Practitioner psychologist
Modality	Clinical psychologist
First intake	01 September 2015
Maximum learner cohort	Up to 15
Intakes per year	1
Assessment reference	MC04072

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider reported a change to the person with overall responsibility for the programme.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Outcome from first review

In considering the evidence provided by the education provider as part of the initial submission, the visitors were not satisfied that there was sufficient evidence that our standards continued to be met at this time, and therefore require further evidence as noted below.

Further evidence required

In order to determine whether the standards continue to be met, the visitors require further evidence for the following standards for the reasons noted below.

We expect education providers to review the issues identified in this report, decide on any changes that they wish to make to programme(s), and then provide any further evidence to demonstrate how they meet the standards.

3.6 Subject areas must be taught by staff with relevant specialist expertise and knowledge.

Reason: The visitors reviewed the evidence provided for this change and agreed that the new appointment for the person with overall responsibility for the programme is appropriate for the role. However, on reading the SETs mapping document, the visitors noted that the previous person who provided the specific research teaching expertise is no longer involved in the programme. The mapping document did state that there is sufficient experience in research and teaching experience across the teaching staff for the programme. The visitors did not receive any evidence to support the statement that the staff in place can take on the research teaching for the programme. Therefore, the visitors need to see further evidence that demonstrates that the staff in place can deliver the research elements for the programme to ensure that this standard continues to be met.

Suggested evidence: Evidence that demonstrates that the staff in place can deliver the research elements for the programme.

Section 5: Visitors' recommendation

Considering the education provider's response to the request for further evidence set out in section 4, the visitors satisfied that there is sufficient evidence that the standards continue to be met and recommend that the programme(s) remain approved.

This report, including the recommendation of the visitors, will be considered at the 05 December 2018 meeting of the ETC. Following this meeting, this report should be read alongside the ETC's decision notice, which are available [on our website](#).

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as ‘our standards’). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Fleur Kitsell	Physiotherapist
Rebecca Khanna	Occupational therapist
Shaista Ahmad	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Occupational Therapy
Mode of study	FT (Full time)
Profession	Occupational therapist
First intake	01 September 1991
Maximum learner cohort	Up to 54
Intakes per year	1
Assessment reference	MC04021

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider has informed us they have introduced a new curriculum design and the modular learning outcomes have been compressed into four learning outcomes. All four placements for the programme will now be delivered in the format of blocks. Assessment on practice placements will now be assessed on a pass / fail basis by the practice educator.

Programme name	BSc (Hons) Physiotherapy
Mode of study	FT (Full time)
Profession	Physiotherapist
First intake	01 October 1980
Maximum learner cohort	Up to 59
Intakes per year	1
Assessment reference	MC04022

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider has informed us that they have introduced a new curriculum design and the module learning outcomes have been re-adjusted. Additionally, there are now academically assessed pieces of coursework associated with clinical placement.

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Case reference	CAS-14159-F9M9F1

Contents

Section 1: Our regulatory approach.....	2
Section 2: Programme details.....	2
Section 3: Requirements to commence assessment.....	3
Section 4: Visitors’ recommendation	3

Executive Summary

We are the Health and Care Professions Council (HCPC), a regulator set up to protect the public. We set standards for education and training, professional knowledge and skills, conduct, performance and ethics; keep a register of professionals who meet those standards; approve programmes which professionals must complete before they can register with us; and take action when professionals on our Register do not meet our standards.

The following is a report on the major change process undertaken by the HCPC to ensure that programmes detailed in this report meet our standards of education and training (referred to through this report as ‘our standards’). The report details the process itself, the evidence considered, and recommendations made regarding programme approval.

Section 1: Our regulatory approach

Our standards

We approve programmes that meet our education standards, which ensure individuals that complete the programmes meet proficiency standards. The proficiency standards set out what a registrant should know, understand and be able to do when they complete their education and training. The education standards are outcome focused, enabling education providers to deliver programmes in different ways, as long as individuals who complete the programme meet the relevant proficiency standards.

Programmes are normally [approved on an open-ended basis](#), subject to satisfactory engagement with our monitoring processes. Programmes we have approved are listed [on our website](#).

How we make our decisions

We make independent evidence based decisions about programme approval. For all assessments, we ensure that we have profession specific input in our decision making. In order to do this, we appoint [partner visitors](#) to undertake assessment of evidence presented through our processes. The visitors make recommendations to the Education and Training Committee (ETC).

The ETC make decisions about the approval and ongoing approval of programmes. In order to do this, they consider recommendations detailed in process report. The Committee meets in public on a regular basis and their decisions are available to view [on our website](#).

HCPC panel

We always appoint at least one partner visitor from the profession (inclusive of modality and / or entitlement, where applicable) with which the assessment is concerned. We also ensure that visitors are supported in their assessment by a member of the HCPC executive team. Details of the HCPC panel for this assessment are as follows:

Luke Tibbits	Social worker
Ismeni Tsikaderi	HCPC executive

Section 2: Programme details

Programme name	BSc (Hons) Social Work
Mode of study	FT (Full time)
Profession	Social worker in England
First intake	01 June 2008
Maximum learner cohort	Up to 60
Intakes per year	1
Assessment reference	MC03991

We undertook this assessment to consider whether the programme continues to meet our standards, following changes reported to us via the major change process. The following is an overview of the changes from the information received via this process.

The education provider has informed the HCPC that they are changing the programme leader for the programme

Section 3: Requirements to commence assessment

In order for us to progress with approval and monitoring assessments, we require certain evidence and information from education providers. The following is a list of evidence that we asked for through this process, and whether that evidence was provided. Education providers are also given the opportunity to include any further supporting evidence as part of their submission. Without a sufficient level of evidence, we need to consider whether we can proceed with the assessment. In this case, we decided that we were able to undertake our assessment with the evidence provided.

Required documentation	Submitted
Major change notification form	Yes
Completed major change standards mapping	Yes

Section 4: Visitors' recommendation

In considering the evidence provided by the education provider as part of the initial submission, the visitors were satisfied that there is sufficient evidence that our standards continue to be met, and therefore recommend that the programme(s) remain approved.
