- Context pack

- Programme specification - Occupational Therapy
- Course Document - Occupational Therapy
- SOPs mapping documents - Occupational Therapy

### **Section three: Additional documentation**

- The visitors agreed that no further documentation was required in order to make a recommendation.
- The visitors agreed that additional documentation was required in order to make a recommendation. The SETs for which additional documentation was requested is listed below with reasons for the request.

### **Section four: Recommendation of the visitor(s)**

To recommend a programme for ongoing approval, the visitors must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme have demonstrated an ability to meet our standards of proficiency (SOPs) for their part of the Register.

The visitors agreed to recommend to the Education and Training Committee that:

- There is sufficient evidence to show the programme continues to meet the standards of education and training and that those who complete the programme will continue to demonstrate an ability to meet the standards of proficiency.
- There is insufficient evidence to determine if or how the programme continues to meet the standards of education and training listed. Therefore, a visit is recommended to gather more evidence and if required place conditions on ongoing approval of the programme.

The visitors' recommendation on this major change means that a new pathway of this programme has been generated. This will result in a new entry (regarding the Pg Dip Occupational Therapy (Pre-registration) programme) being placed in our records and on our website.
