Action: AC (by 10 October 2006)**Item 8.06/82 MINOR/MAJOR CHANGE: MASTER OF NUTRITION - UNIVERSITY OF NOTTINGHAM**

- 8.1 The Panel received a paper for discussion/approval from the Executive.
- 8.2 The Panel noted that the University of Nottingham had submitted an application under the minor and major changes process, regarding the development of a second access route to the approved programme, which would allow appropriately qualified graduates to gain direct entry into year three of the programme. The development also included the creation of new modules, changes to a number of existing modules and changes to the existing regulations. The development was planned to take effect from September 2006.
- 8.3 The Panel noted that the Visitors and the Executive had reviewed the original submission and further information from the education provider, which had been requested to clarify a number of points. The Visitors had recommended that the proposed changes constituted a new programme, as there would be two distinct entry routes and the design of the proposed second route was based on an understanding that students had not studied many of the subject areas taught in the existing route.
- 8.4 The Panel agreed to accept the Visitors' recommendation and agreed that an approvals visit should be arranged to consider the proposed new programme.

Action: AC (by 10 October 2006)**Item 9.06/83 MAJOR/MINOR CHANGES**

Item 10.06/84 HPC ANNUAL MONITORING AUDITS FOR APPROVAL

- 10.1 The Panel received a paper for discussion/approval from the Executive.
- 10.2 The Panel noted that the HPC annual monitoring cycle took place annually and involved two types of monitoring submissions over a two year period. The Executive had divided education providers in two groups. In 2006, all programmes in Group B had been required to complete an audit form and submit it with their internal quality reports and external examiners' reports from the last two academic years.
- 10.3 The Panel noted that five assessment days had been held in May and June to consider the submissions from programmes in Group B. As a result of the assessment days, Visitors had recommended that a number of programmes continued to meet the SETs.

- 12.2 The Panel noted that, following the five assessment days held in May and June, the Visitors had requested further information on several programmes to allow them to make a recommendation on whether the programmes continued to meet the SETs.

- 12.3 The Panel noted that the programmes listed in the paper were due to have an Approvals Visit in the 2006-7 academic year and as part of the HPC's "light touch" approvals and monitoring process, it was felt to be more appropriate that the Visitors' requests for more information should be considered as part of the forthcoming visits. The Panel noted that the reports from the annual monitoring assessment days would be shared with the Visitors undertaking the approvals visit and the education provider.
