

Audit Committee 27 September 2012

Internal audit – Review of recommendations

Executive summary and recommendations

At its meeting on 29 September 2011, the Committee agreed that it should receive a paper at each meeting, setting out progress on recommendations from internal audit reports.

Most of the information in the appendix is taken from the wording of the internal audit reports. The exception is the 'update' paragraph in the right-hand column, which provides details of progress. In addition, references to HPC in the internal audit reports have been changed to HCPC, following the change of the organisation's name on 1 August 2012.

Decision

The Committee is requested to discuss the paper.

Background information

Please refer to individual internal audit reports for the background to recommendations.

Resource implications

None

Financial implications

None

Appendices

Recommendations from internal audit reports 2011-12

Information Security/Data protection (report dated September 2011 – considered at Audit Committee 29 September 2011)

Assurance on effectiveness of internal controls: Substantial Assurance

Recommendations summary

Priority	Number of recommendations
Fundamental	None
Significant	None
Housekeeping	9

Risk 1: Electronic data is removed inappropriately by an employee (Data Security – Risk No 17.1)

	Observation/Risk	Recommendation	Priority	Management response	Timescale/responsibility
1	<p><i>Observation:</i> Staff are asked to sign up to the Information Technology Policy under section 5h of the Employee Handbook. This policy details the responsibilities of the staff and the use of devices such as laptops and PDA's and use of email, telephone calls etc.</p> <p>Whilst it mentions that information held on USB drives is the property of HCPC, it does not mention HCPC's specific policy in respect of these tools. For example, the responsibilities of Staff using USB drives, that only encrypted</p>	As planned, HCPC should review and update the Information Technology Policy held within the Employee Handbook to ensure it provides more detail on the use of USB data drives.	Housekeeping	A review of the IT Policy is scheduled for 2012-13 financial year. These updates will reflect changes in technology that are rolled out to the organisation over the next few months	<p>2012-13 Financial year</p> <p>Director of HR /Director of IT</p> <p>Update: The Director of Information Technology has indicated that his department will aim to get the USB controls in place by 27 September 2012 and the policy change in place by 29 November 2012. The policy change</p>

2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

	<p>drives can be used, what USBs should be used for and the security of these.</p> <p>We were informed that the Policy is currently being reviewed and should be in place from September 2011.</p> <p><i>Risk:</i> Staff are not fully aware of their responsibilities in respect of the use of USB data drives.</p>				is due to be considered by the Finance and Resources Committee on 20 November 2012.
2	<p><i>Observation:</i> A report was provided by the Head of Business Process Improvement which detailed a review of the Payment Card Industry (PCI) process.</p> <p>One of the weaknesses identified was where data was taken over the telephone, it was not secure enough to ensure personal data could not be copied. There were also concerns over the security of the PDQ machine for walk in applicants and the arrangements around the collecting of the Section 10 on the International Application Forms which contain credit card details.</p> <p>HGPC is investing in Semafone in September 2011 which will provide an automatic third party process which will</p>	HGPC should continue to address the issues identified in the recent PCI report.	Housekeeping	This project is in progress, and is currently awaiting action by utilities to transfer specific telephone numbers to new services.	<p>End of year [2011-12]</p> <p>Director of Finance</p> <p>Update: The project was implemented in February 2012.</p>

2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

	<p>remove any staff needing to take responsibility for taking credit card details. The PDQ machine is also going to be moved into a more secure area, and Section 10 details will be held more securely in the interim, but it is intended that this transaction will be dealt with by Semafone also.</p> <p><i>Risk:</i> Loss of bank and credit card details.</p>				
3	<p><i>Observation:</i> Through discussion with the HR Manager, the Director of Operations and the Head of Business Process Improvement there tended to be a view that HCPC did not have a formal leavers checklist in place which ensured that all issued items, such as Blackberry's , ID cards, etc were returned and all appropriate departments such as IT, Payroll, etc were informed in a timely manner.</p> <p>At the debrief, this was questioned by the Chief Executive and a copy of a checklist was provided which covered most key areas, though it was felt it would benefit from a more formal list of all potential items that should be returned to ensure that nothing could be missed off.</p>	<p>The HR team should review and update the Leaver's checklist to ensure that it covers off all key areas and items that need returning. Once reviewed this should be communicated to managers across the organisation so that they are fully aware of the checklist.</p>	Housekeeping.	<p>The list will be reviewed and updated where required. The list will be circulated to all EMT, CDT and line managers.</p>	<p>November 2011</p> <p>Director of HR / HR Manager</p> <p>Update: A new on-line leavers form (including an updated checklist for managers) has been introduced and is now in use across the organisation.</p>

Date	Ver.	Dept/Cmte	Doc Type	Title	Status	Int. Aud.
2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

	<i>Risk:</i> Failure to ensure that Leavers do not take away items which contain personal information.				
--	--------------------------------------------------------------------------------------------------------	--	--	--	--

Risk 2: Paper record Data Security (Data Security – Risk No 17.2).

	Observation/Risk	Recommendation	Priority	Management response	Timescale/ responsibility
4	<p><i>Observation:</i> Locked document destruction bins were observed as being in place within each department visited. A bag is suspended in each of the bins and confidential documentation is placed in the locked bins and emptied on a weekly basis by Iron Mountain.</p> <p>The service level agreement with Iron Mountain specifies the responsibilities of both parties. It was noted however that this states that HCPC staff are responsible for the tying up and sealing of the bags, but having spoken with staff this part of the process is performed by Iron Mountain. At the time of the audit we did not witness the Iron Mountain process in practice.</p> <p><i>Risk:</i> Confusion over the responsibilities of both parties in the agreement, which could be problematic in the event of any data security arising.</p>	HCPC should revisit the service level agreement with Iron Mountain and ensure this is updated to reflect current roles and responsibilities in respect of tying and sealing of the bags.	Housekeeping	The current method of collection used by Iron Mountain utilises a large blue “wheelie bin” transported around the office buildings to each location, where the bins contents are emptied directly into the blue bin. Bag securing is no longer required. The Facilities Manager will attempt to have the SLA updated, although it is believed to be generic across all clients, and resistance may be incurred.	<p>December 2011</p> <p>Facilities Manager</p> <p>Update: A new supplier has been appointed to deal with collection and disposal of confidential waste.</p>

2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

5	<p><i>Observation:</i> The Director for Fitness to Practise provided us with a document retention policy which is used within their team and clearly sets out the timescales for retaining different documents.</p> <p>HCPC also has a Destruction (and Retention) Policy which was created in 2005, when the Freedom of Information Act came into force. Whilst it provides a high level list of documents held and retention dates it has been accepted by management that there is a need to develop a more comprehensive retention policy on a similar line to the Fitness to Practise document.</p> <p><i>Risk:</i> Failure to comply with the Data Protection Act by keeping personal information beyond timescales which the Act deems appropriate.</p>	<p>As planned HCPC should look to expanding and enhancing their current Destruction (and Retention) Policy to match the style of the document retention policy in place with Fitness to Practise.</p> <p>Once completed this policy should be agreed with all departments and then communicated to all parties.</p> <p>In addition, consideration for encompassing the FTP document already in existence into this document.</p>	Housekeeping	<p>A high level organisation wide destruction / retention table has existed since 2005</p> <p>A scheduled updating of policies will produce a document similar to the FTP Retention policy.</p> <p>Individual departments are aware of the retention requirements relating to their own areas.</p>	<p>Next 6 months</p> <p>Director of Operations</p> <p>Update: At the Audit Committee on 13 March 2012, it was noted that the current destruction and retention policy would be updated by 1 July 2012. The policy was approved by the Audit Committee at its meeting on 21 June 2012.</p>
---	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

6	<p><i>Observation:</i> Section 8a of the Employee handbook provides explicit detail on the Office Security Policy.</p> <p>Whilst it contains a summary of some of the key measures such as locking all room, not divulging access codes etc., it did not include ensuring that sensitive information is securely locked in cabinets when the office is unmanned.</p> <p>It was also noted that there is currently no 'clear desk policy' in place.</p> <p><i>Risk:</i> Loss of personal data due to failure to ensure effective office security processes in place.</p>	<p>HCPC should consider updating the Office Security Policy within the Employee Handbook to make explicit reference to ensuring that all filing cabinets are locked when the section is unmanned.</p>	Housekeeping	<p>Departmental guidelines require confidential material to be secured overnight, however we will look to update the employee handbook</p>	<p>By April 2012</p> <p>Head of BPI & Facilities Manager (Director of HR)</p> <p>Update: The Head of Business Process Improvement drafted wording for the employee handbook which was approved by the Director of Human Resources and the Facilities Manager. The handbook is due to be updated during August 2012.</p>
		<p>When practical the organisation should look towards introducing a 'clear desk policy' to ensure that all sensitive and personal data is locked away at the end of each day. Once implemented this should be detailed in the Employee Handbook.</p>	Housekeeping

2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

7	<p><i>Observation:</i> The Employee Handbook includes a section on crime and data protection.</p> <p>In review of this we noted that it did not explicitly explain the importance of data protection to staff, nor detail the responsibilities of the Council or staff in respect of use of and security over personal data.</p> <p>The Secretary to the Council later provided us with the Freedom of Information/Data Protection HCPC Policy and Procedure which gave a brief guide on data protection and subject access requests.</p> <p><i>Risk:</i> Misleading or inadequate information detailed within the Employee Handbook on data protection.</p>	<p>Consideration be given to including the Freedom of Information/Data Protection HCPC Policy and Procedure document within the Employee Handbook to ensure that staff are fully aware of the responsibilities regarding data protection and the process for subject data access.</p>	Housekeeping	<p>The current handbook content will be reviewed and ensure it matches other more detailed guidance elsewhere.</p>	<p>April 2012 Director of HR / Secretary to Council</p> <p>Update: The Director of Human Resources has discussed this with the Secretary to Council.</p> <p>The Director of Human Resources advised that significant amounts of information are already provided to employees during the induction process about both Data Protection and Freedom of Information, so it is not felt necessary to replicate this in the employee handbook.</p> <p>During induction, employees are required to read and sign a letter from the Chief Executive explaining HCPC's data protection policies before being given access to IT systems. In addition, data protection</p>

Risk 4: Loss of physical despatched to and held by third party for the delivery of their services (Data Security – Risk No 17.5)

	Observation/Risk	Recommendation	Priority	Management response	Timescale/responsibility
8	<i>Observation:</i> Applications are entered on to the NetRegulate system on arrival. Once entered the hard copy applications are picked up by Service Point who will scan and copy the documents with one copy being sent back to HCPC and an electronic copy being sent on disk. A copy of the paperwork will be sent on to assessors for evaluation.	As planned, HCPC should consider the introduction of online applications.	Housekeeping	Online applications are already on a project list, and will be prioritised when a suitable window in the projects schedule allows. However, we are	Ongoing Director of Operations/EMT. Update: Online applications is a project on the list of projects for future consideration.

Date	Ver.	Dept/Cmte	Doc Type	Title	Status	Int. Aud.
2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

	<p>Through discussion with the Head of Registration he confirmed that the current process is not ideal and informed us that HCPC are currently looking at a project to consider introducing online applications. Whilst there would still be a requirement for certain proof of identity documents to be sent through the post, this would significantly reduce the current process which in turn would reduce the risk to potential information security breach.</p> <p><i>Risk:</i> Ineffective processes resulting in an increased risk of information security breach.</p>			legally required to provide a paper application route.	These will be discussed at the Executive Management Team in November 2012 to determine prioritisation of projects.

	and projects that are unfeasible are approved, resulting in overspends.	decision on project prioritisation.			
2	<p><i>Observation:</i> The Project Portfolio Manager will, on an annual basis, circulate a five year list of projects to EMT. To meet the criteria for a major project the project must meet a number of criteria listed in the Project Management Handbook.</p> <p>On review of minutes of EMT and project briefings, it is not explicit as to how the project has been classified major with respect to meeting the criteria outlined per the handbook.</p> <p><i>Risk:</i> It is not clear under what criteria a project is classified major, resulting in potential scrutiny should a project go off course and incorrect allocation of resources.</p>	Consideration be given to explicitly reporting for those projects categorised as 'major' the criteria that have been met within the Project Management handbook.	Housekeeping	The Outline Business Case template has been amended to include a section that documents which qualification criteria have been met.	Completed.
3	<p><i>Observation:</i> Issues logs are regularly produced for the Project Management Team meetings.</p> <p>The log should include the issue, its priority, the date of completion and whether the issue has been resolved.</p> <p>On inspection of the most recent issues log for the FTP project it was apparent</p>	Issues entered into issue logs are consistently graded by significance with clear reference made to which are the major issues to be included within the exception report.	Housekeeping.	All projects initiated in financial year 2011/12 onwards use a template designed in November 2011 which incorporates this recommendation.	Completed.

Date	Ver.	Dept/Cmte	Doc Type	Title	Status	Int. Aud.
2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

<p>that not all issues had been graded with regard to their significance. Furthermore, it was not immediately clear which issues had been closed.</p> <p><i>Risk:</i> Issues are deemed complete when appropriate action has not been taken, resulting in recurring problems</p>				
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--	--	--

Risk 2: Failure to successfully open the Social Worker register (8.12, Council Risk Register)

	Observation/Risk	Recommendation	Priority	Management response	Timescale/ responsibility
4	<p><i>Observation:</i> The Social Worker register is classed as a statutory project, and as such is immediately determined as a major project and therefore is not required to have a business case. This is stated in the HCPC Projects Listing document. It was noted, however, that this is not mentioned within the Project Management Handbook.</p> <p><i>Risk:</i> New users following the handbook incorrectly classify a statutory project as departmental and not major, resulting in potential non-rolling out of said project.</p>	Point two on the Project listing document cover sheet, outlining what necessitates a major project, should be included in the Project Management Handbook.	Housekeeping.	This has now been included in the Handbook.	Completed.

Risk 3: Major Project Cost Over-runs (15.3, Council Risk Register).

Observation/Risk	Recommendation	Priority	Management response	Timescale/

27 September 2012						

					responsibility
5	<p><i>Observation:</i> Statutory projects such as the GSCC register do not require a Business Case to be prepared; as such we did not find any document outlining: the project background; project definition; project approach; project team; budget risks; quality plan; or communications plan.</p> <p>Whilst we can appreciate not requiring a business case, we feel that the project should contain a Project Brief document which sets out the key elements mentioned above.</p> <p><i>Risk:</i> Planning issues, with staff unsure of responsibilities and unable to reference a document that clearly outlines the project plan.</p>	<p>HCPC should consider the use of Project Briefs for statutory projects. These should include;</p> <ul style="list-style-type: none"> - project background; - project definition; - project approach; - project team; - budget risks; - quality plan; and - communications plan. 	Housekeeping	All statutory projects will go through the standard project initiation process and will have a Project Initiation Document compiled – in line with all other projects.	
6	<p><i>Observation:</i> Budgets are set for each project and are outlined in the Project Brief.</p> <p>A Contingency is built into each budget. This tends to be set using historical costs, supplier contingency quotes and experience from previous projects. The budget is agreed by the Project Manager and the relevant department, and approved through EMT and the Finance</p>	<p>Consideration is given to separating out the contingency costs out of the overall budget in each project to provide greater transparency.</p> <p>This would also allow the Project Manager to be more explicit about quantifying the precise</p>	Housekeeping	All project budgets will have a specific contingency line included.	

Date	Ver.	Dept/Cmte	Doc Type	Title	Status	Int. Aud.
2012-07-18	a	AUD	PPR	Executive summary review of recommendations Audit Committee 27 September 2012	Final DD: None	Public RD: None

	<p>and Resources Committee.</p> <p>However the contingency is not explicitly separated out or reported on as such.</p> <p><i>Risk:</i> Lack of transparency means EMT could make decisions not knowing the full picture.</p>	<p>amount allocated to contingency.</p>			
7	<p><i>Observation:</i> On discussion with the Portfolio Manager we noted that HCPC does not currently undertake an annual analytical review process that collates all projects together and clearly outlines how many have over/under spent or which have met/not met deadlines among other key data.</p> <p>This was something the Portfolio Project Manager was planning to do, but limited resources has made it difficult to do</p> <p><i>Risk:</i> Major trends in overspending and un-timeliness are overlooked, resulting in recurring problems for future projects.</p>	<p>The Project Management team should endeavour to create an annual end of year overall project summary including key data such as: number of projects overspent/underspent; number of deadlines met/not met; departments where deadlines/budgets are met/not met.</p>	Housekeeping	<p>All projects undergo a Project End process. This analyses how a project performed against Time, Cost and Quality. At the end of the financial year – if resources permit – a report will be written to collate all project end report findings.</p>	
8	<p><i>Observation:</i> Once a project is closed it is no longer monitored by the Project Management Team. The Head of Business Process Improvement has the responsibility for reporting any benefits realised through the 'Near Miss' report.</p>	<p>The Project Management team should log the findings from the Near Miss reports, and informal departmental feedback on closed projects that</p>	Housekeeping	<p>At the end of each project a full project review is undertaken and the success of the project is measured against Cost, Time and Quality. The findings of this review are summarised by</p>
