Website Standards

Standard	Standard Achieved	Standard Not Met
Is familiar with contents of website relevant to job	 Uses website to gain information needed to carry out job. Is familiar with topline headings of site and can direct callers to relevant areas. 	 Does not use website, or uses website infrequently. Always asks for assistance to find pages. Has no idea where common content (forms, online register) might be, or how to find them.
Confidently refers callers to web-pages that address their needs.	Checks that registrant has internet access, directs them clearly to page required, describing where they need to go, and in which section.	 Tells registrants 'it's on the website' with no further information given. Does not refer registrants to the website.
Participates in keeping website relevant, and up-to-date.	 Checks information on-line, discusses online info with colleagues in light of contact with registrants – could it be improved? Suggests amendments, additions, either to registration manager, or to Web Manager. 	 Does not note down and inform if information is inaccurate. Does not suggest updates or changes.
