## health professions council

Education and Training Committee - 11 June 2009

Withdrawal of approval from historic programmes

Executive summary and recommendations

## Introduction

As a result of the completion of the definitive list of approved programmes, the Education Department holds a list of approved programmes that are recorded as "closed". These programmes either have no students, or have students but are no longer recruiting additional cohorts.

As all of these programmes still carry approved status the risk exists that an education provider may re-establish a training programme as leading to eligibility to register with the Health Professions Council.

This paper is asking the Education & Training Committee to agree that those programmes listed below, where consent has been obtained from the education provider or validating body, have the ongoing approval of the programme withdrawn. By withdrawing "ongoing approval" the programme will remain approved between the commencement dates of the first cohort and final cohort.

All consent forms for programmes have been checked and confirmed by the executive. Consent forms may be seen upon request.

## Decision

The Committee is asked to **agree** the following:

That the following programmes, which have submitted a signed consent form, have their ongoing approval status withdrawn.

Education	Validating	Programme Name	Delivery
Provider	Body		Mode
Goldsmiths College	Goldsmiths College	PgDip in Art Psychotherapy	Full time
University of London	University of		
	London
