Executive summary

The Health Professions Council (HPC) approves educational programmes in the UK which health professionals must complete before they can apply to be registered with us. The HPC approve programmes on an open-ended basis which requires that, when significant changes occur to a programme, we receive notification and are able to ensure all our standards continue to be met. The HPC is a health regulator and our main aim is to protect the public. The HPC currently regulates 14 professions. All of these professions have at least one professional title which is protected by law. This means that anyone using the title 'Physiotherapist' must be registered with us. The HPC keeps a register of health professionals who meet our standards for their training, professional skills, behaviour and health.

The major change visitors' report which follows outlines the recommended outcome made by the visitors on the ongoing approval of the programme. The visitors' recommended outcome is that there is sufficient evidence to show that the programme continues to meet the standards of education and training and those who complete the programme continue to demonstrate an ability to meet the standards of proficiency for the appropriate profession.

Introduction

The education provider contacted the HPC to notify of changes occurring to the programme that may have an impact on the standards of education and training and the standards of proficiency. The nature of the change required additional scrutiny by visitors to determine whether the programme continued to meet the standards of education and training and that those who complete the programme demonstrated a continued ability to meet the standards of proficiency.

Major change submission details

Name and profession of HPC visitors	Fleur Kitsell (Physiotherapist)
HPC executive officer	Rachel Greig

Summary of change

SET 3 Programme management and resource standards

The programme leader has changed. The education provider has provided a CV of the new course leader for scrutiny.

Sources of evidence

To show how the programme continued to meet the standards of education and training and that those who complete the programme continue to demonstrate an ability to meet the standards of proficiency the education provider submitted the following documentation:

Curriculum vitae for relevant staff

Recommended outcome

To recommend a programme for ongoing approval, the visitors must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme have demonstrated an ability to meet our standards of proficiency (SOPs) for their part of the Register.

The visitor agreed to recommend to the Education and Training Committee that there is sufficient evidence to show the programme continues to meet the standards of education and training and that those who complete the programme will continue to demonstrate an ability to meet the standards of proficiency.

The nature of the change required additional scrutiny by visitors to determine whether the programme continued to meet the standards of education and training and that those who complete the programme demonstrated a continued ability to meet the standards of proficiency.

Major change submission details

Name and profession of HPC visitors	Anthony Power (Physiotherapist)
HPC executive officer	Paula Lescott

Summary of change

SET 3 Programme management and resource standards

Change of programme leader at Leeds Metropolitan University. The education provider submitted a CV for the new programme lead.

Sources of evidence

To show how the programme continued to meet the standards of education and training and that those who complete the programme continue to demonstrate an ability to meet the standards of proficiency the education provider submitted the following documentation:

Curriculum vitae for relevant staff

After initial scrutiny of these documents the following additional documentation was requested to assist the visitors in the assessment of the change(s):

A report from the Subject Group Leader for Rehabilitation Sciences, the Senior Member of the Faculty of Health responsible for the programme, explaining how the change in course leader would not impact on the programme continuing to meet SET 3.4

Recommended outcome

To recommend a programme for ongoing approval, the visitor must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme have demonstrated an ability to meet our standards of proficiency (SOPs) for their part of the Register.

The visitors agreed to recommend to the Education and Training Committee that there is sufficient evidence to show the programme continues to meet the standards of education and training and that those who complete the programme will continue to demonstrate an ability to meet the standards of proficiency.

Executive summary

The Health Professions Council (HPC) approves educational programmes in the UK which health professionals must complete before they can apply to be registered with us. The HPC approve programmes on an open-ended basis which requires that, when significant changes occur to a programme, we receive notification and are able to ensure all our standards continue to be met. The HPC is a health regulator and our main aim is to protect the public. The HPC currently regulates 14 professions. The HPC keeps a register of health professionals who meet our standards for their training, professional skills, behaviour and health.

As well as approving educational programmes for people who want to join the Register, the HPC also approve a small number of programmes for those already on the Register. The post-registration programmes we currently approve are supplementary prescribing programmes (for chiropodists / podiatrists, radiographers and physiotherapists) and programmes in local anaesthetics and prescription-only medicine (for chiropodists / podiatrists).

The major change visitors' report which follows outlines the recommended outcome made by the visitors on the ongoing approval of the programme. The visitors' recommended outcome is that there is sufficient evidence to show that the programme continues to meet the standards of education and training and those who complete the programme continue to demonstrate an ability to meet the standards of proficiency for the appropriate profession.

Introduction

The education provider contacted the HPC to notify of changes occurring to the programme that may have an impact on the standards of education and training and the standards of proficiency. The nature of the change required additional scrutiny by visitors to determine whether the programme continued to meet the standards of education and training and that those who complete the programme demonstrated a continued ability to meet the standards of proficiency.

Major change submission details

Name and profession of HPC visitors	James Pickard (Podiatrist) Linda Mutema (Radiographer)
HPC executive officer	Mandy Hargood

Summary of change

SET 6 Assessment standards

The education provider wishes to appoint an external examiner who is on the register of another regulator.

Sources of evidence

To show how the programme continued to meet the standards of education and training and that those who complete the programme continue to demonstrate an ability to meet the standards of proficiency the education provider submitted the following documentation:

Curriculum Vitae for the new external examiner

Recommended outcome

To recommend a programme for ongoing approval, the visitors must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme have demonstrated an ability to meet our standards of proficiency (SOPs) for their part of the Register.

The visitors agreed to recommend to the Education and Training Committee that there is sufficient evidence to show the programme continues to meet the standards of education and training and that those who complete the programme will continue to demonstrate an ability to meet the standards of proficiency.

Major change submission details

Name and profession of HPC visitors	Shaaron Pratt (Radiographer) Russel Hart (Radiographer)
HPC executive officer	Rachel Greig

Summary of change

SET 6 Assessment standards

A change has occurred to a Year 2 module assessment-Personal and Professional Development II from the existing 2000 words critique (50% of marks) and conference paper (50% marks) to one element of assessment - a journal club paper - 100% of the marks.

Sources of evidence

To show how the programme continued to meet the standards of education and training and that those who complete the programme continue to demonstrate an ability to meet the standards of proficiency the education provider submitted the following documentation:

Descriptions of the modules

Submission front sheet to the Faculty Quality Committee (FQC)

Extract from the minutes of the FQC approving the change

|

Recommended outcome

To recommend a programme for ongoing approval, the visitors must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme have demonstrated an ability to meet our standards of proficiency (SOPs) for their part of the Register.

The visitors agreed to recommend to the Education and Training Committee that there is sufficient evidence to show the programme continues to meet the standards of education and training and that those who complete the programme will continue to demonstrate an ability to meet the standards of proficiency.

Major change submission details

Name and profession of HPC visitors	Russell Hart (Radiographer) Shaaron Pratt (Radiographer)
HPC executive officer	Rachel Grieg

Summary of change

SET 6 Assessment standards

The first proposed change relates to a year 2 module assessment - Personal and Professional Development II. This change is from the existing 2000 word critique and conference paper to a single element of assessment, i.e. a journal club paper.

The second proposed change relates to another year 2 module assessment – Treatment Planning. This changes from the existing OSPE and coursework essay to a single element of assessment i.e. OSPE alone.

Sources of evidence

To show how the programme continued to meet the standards of education and training and that those who complete the programme continue to demonstrate an ability to meet the standards of proficiency the education provider submitted the following documentation:

Descriptions of the modules

Submission front sheet to the Faculty Quality Committee (FQC)

Extract from the minutes of the FQC approving the change
