### Guidance for Panel Chairs

In determining whether to approve a programme, the Panel must reach its decision on the basis of the evidence put before it, in the form of the HPC Visitors' report and any observations on the report made by the education provider.

The Visitors' report is only a recommendation and the Panel may depart from that recommendation where it is satisfied that it is appropriate to do so.

The Panel must reach its own decision and give reasons for that decision. If the Panel wishes to amend the report, it should give reasons for each amendment.

<b>Decision:</b>
<ol style="list-style-type: none"> <li>1. That the agreed amendments be made to the Visitors report and attached Stage one Assessment report to take into account observations submitted by the Education Provider.</li> <li>2. Subject to these amendments, the Visitors' report (including conditions and recommendations) is accepted.</li> <li>3. The final version of the Visitors report and attached Stage One Assessment report are sent to the Education provider and are made available in the Committee section of the HCPC website.</li> </ol>
<b>Reasons</b>

1. Following observations from the Education Provider, the Panel was satisfied that amendments to the Visitors report and stage one assessment were appropriate; to ensure that the description of the programme in the report was accurate; and to ensure that the conditions and expectations underpinning the reasoning for the conditions were reasonable.

2. The Panel was satisfied that, subject to these amendments, the conditions in the Visitors' report must be met before the programme can be approved or before the ongoing approval of the programme can be confirmed.
