

Education and Training Committee

Programmes previously recommended for approval subject to conditions where the visitors have recommended non-approval:

Programme name	BSc (Hons) Physiotherapy
Education provider	University of Chichester
Mode of delivery	FT (full time)
Assessment ref	APP02192
Date of decision	20 August 2020

Panel: Maureen Drake
Luke Jenkinson
Penny Joyce
Sonya Lam
Kathryn Thirlaway
Stephen Wordsworth (Chair)

Decision
That the programme, which was previously recommended for approval subject to meeting conditions, and which now the visitors are recommending that the conditions are not met, has demonstrated that the remaining conditions are met.
Reasons
Visitors recommended that the programme was not approved, as they were not satisfied that five conditions around the ability to ensure the availability and capacity of practice-based learning had been demonstrated to a sufficient level of assurance. The Committee considered this recommendation, alongside observations from the education provider. Given the nature of the outstanding issues, and the additional observations and clarification provided to the Committee, which had not been received by the visitors, the Committee were assured that the relevant processes were in place to ensure the availability and capacity of practice-based learning for all learners. The Committee agreed that the programme should therefore be approved.

Signed:..... **Panel Chair**
