

# Standards of Proficiency Review PLG

## *Professional bodies' input into the review*

### Executive Summary and Recommendations

#### Introduction

The professional bodies will have an important part to play in the Standards of Proficiency review, in provided profession-specific information about the standards which apply to their profession, and how they are working after two years. As well as the nominated representatives who sit on the group, each professional body should have the opportunity to send in information about the standards which relate to its profession, and the attached papers detail how this might take place.

#### Decision

The group is asked to *agree* the attached documents for involving professional bodies in the SOPs review.

#### Background information

The text of the questions asked is taken from the original series of consultations with professional bodies that formed part of the development of the Standards of Proficiency.

#### Resource implications

None.

#### Financial implications

None; it is suggested that the information should be sent out by email.

#### Background papers

None.

#### Appendices

None.
