

**Standards of Education and Training review meeting, 13 September 2007:  
Work plan**

Executive summary and recommendations

**Introduction**

Article 15 (1) of the Health Professions Order 2001 (“the order”) provides that:

*The Council shall from time to time establish—*

*(a) the standards of education and training necessary to achieve the standards of proficiency it has established under article 5(2)*

The attached work plan sets out the proposed timetable of activities to review the existing Standards of Education and Training.

**Decision**

This paper is to note. No decision is required.

**Background information**

The Standards of Education and Training were published in 2004. They are applicable to education providers and the programmes that they run for professions currently regulated and those which may be regulated in the future.

They have been used by education providers and visitors for 3 years to assess whether a graduate from an educational programme will meet the Standards of Proficiency.

In 2006 we consulted on guidance for the Standards of Education and Training and found that some of the respondents felt there should be alterations made to the standards themselves.
