Executive summary

The Health Professions Council (HPC) approve educational programmes in the UK which health professionals must complete before they can apply to be registered with us. The HPC is a health regulator and our main aim is to protect the public. The HPC currently regulates 15 professions. All of these professions have at least one professional title which is protected by law. This means that anyone using the title 'Practitioner psychologist'or 'Clinical psychologist' must be registered with us. The HPC keep a register of health professionals who meet our standards for their training, professional skills, behaviour and health.

The visitors' report which follows outlines the recommended outcome made by the visitors on the ongoing approval of the programme. The education provider has until 17 May 2010 to provide observations on this report. The report and any observations received will be considered by the Education and Training Committee (Committee) on 8 June 2010. At this meeting, the Committee will accept the visitors' recommended outcome and approve the programme.

Introduction

The HPC visited the programme at the education provider as the Practitioner Psychologist profession came onto the register in July 2009 and a decision was made by the Education and Training Committee to visit all existing programmes from this profession. This visit assessed the programme against the standards of education and training (SETs) and considered whether those who complete the programme meet the standards of proficiency (SOPs) for their part of the Register.

This visit was part of a joint event. The professional body considered their accreditation of the programme. The professional body and the HPC formed a joint panel, with an independent chair and secretary, supplied by the education provider. Whilst the joint panel participated in collaborative scrutiny of the programme and dialogue throughout the visit; this report covers the HPC's recommendations on the programme only. As an independent regulatory body, the HPC's recommended outcome is independent and impartial and based solely on the HPC's standards. A separate report, produced by the professional body, outlines their decisions on the programme's status.

Visit details

Name of HPC visitors and profession	Ruth Baker (Clinical Psychologist) Harry Brick (Clinical Psychologist) Shaaron Pratt (Radiographer)		
HPC executive officer(s) (in attendance)	Mandy Hargood		
HPC observer	Joy Tweed		
Proposed student numbers	20 per cohort		
Initial approval	1 January 1992		
Effective date that programme approval reconfirmed from	September 2010		
Chair	Alison Mainwood (Kings College, London)		
Secretary	Stuart Wilson (Institute of Psychiatry)		
Members of the joint panel	Isabel Hargreaves (British Psychological Society) Helen Dent (British Psychological Society) Reg Morris (British Psychological Society) Lucy Kerry (British Psychological Society) Susie Chester (British Psychological Society)		

Sources of evidence

Prior to the visit the HPC reviewed the documentation detailed below, sent by the education provider:

	Yes	No	N/A
Programme specification			
Descriptions of the modules	\boxtimes		
Mapping document providing evidence of how the education provider has met the SETs			
Mapping document providing evidence of how the education provider has met the SOPs			
Practice placement handbook	\boxtimes		
Student handbook	\boxtimes		
Curriculum vitae for relevant staff	\boxtimes		
External examiners' reports from the last two years	\boxtimes		

During the visit the HPC saw the following groups or facilities:

	Yes	No	N/A
Senior managers of the education provider with responsibility for resources for the programme			
Programme team			
Placements providers and educators/mentors	\boxtimes		
Students			
Learning resources			
Specialist teaching accommodation (eg specialist laboratories and teaching rooms)			

Recommended outcome

To recommend a programme for ongoing approval, the visitors must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme meet our standards of proficiency (SOPs) for their part of the Register.

The visitors agreed to recommend to the Education and Training Committee that the ongoing approval of the programme is reconfirmed.

The visitors did not set any conditions for the programme.

Conditions are requirements that the education provider must meet before the programme can be recommended for ongoing approval. Conditions are set when certain standards of education and training have not been met or there is insufficient evidence of the standard being met.

The visitors did not make any recommendations for the programme.

Recommendations are observations on the programme or education provider which do not need to be met before the programme is recommended for ongoing approval. Recommendations are normally set to encourage further enhancements to the programme and are normally set when it is felt that the particular standard of education and training has been met at, or just above the threshold level.

The visitors did not make any commendations on the programme. Commendations are observations of innovative best practice by a programme or education provider.
