Executive summary

The Health and Care Professions Council (HCPC) approve educational programmes in the UK which health and care professionals must complete before they can apply to be registered with us. The HCPC is a statutory regulator and our main aim is to protect the public. The HCPC currently regulates 16 professions. All of these professions have at least one professional title which is protected by law. This means that anyone using the title 'Social worker' in England must be registered with us. The HCPC keep a register of health and care professionals who meet our standards for their training, professional skills, behaviour and health.

The visitors' report which follows outlines the recommended outcome made by the visitors on the approval of the programme. This recommended outcome was accepted by the Education and Training Committee (Committee) on 22 August 2013. At the Committee meeting, the programme was approved. This means that the education provider has met the condition(s) outlined in this report and that the programme meets our standards of education and training (SETs) and ensures that those who complete it meet our standards of proficiency (SOPs) for their part of the Register. The programme is now granted open ended approval, subject to satisfactory monitoring.

Introduction

The HCPC visited the programme at the education provider as the Social work profession (in England) came onto the register on 1 August 2012 and a decision was made by the Education and Training Committee to visit all existing programmes from this profession. This visit assessed the programme against the standards of education and training (SETs) and considered whether those who complete the programme meet the standards of proficiency (SOPs) for their part of the Register.

This visit was part of a joint event. The education provider validated the programme and the professional body considered their accreditation of the programme. The visit also considered the following programmes - BA (Hons) Social Work and MA Social Work (Pre-Qualifying). The education provider, the professional body and the HCPC formed a joint panel, with an independent chair and secretary, supplied by the education provider. Whilst the joint panel participated in collaborative scrutiny of all the programmes and dialogue throughout the visit; this report covers the HCPC's recommendations on this programme only. Separate reports exist for the other programmes. As an independent regulatory body, the HCPC's recommended outcome is independent and impartial and based solely on the HCPC's standards. Separate reports, produced by the education provider and the professional body, outline their decisions on the programme's status.

External examiners' reports from the last two years	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

The HCPC did not review external examiners' reports from the last two years prior to the visit, the programme is a new programme and therefore this documentation does not exist. The visitors did review external examiners' reports from the last two years for the BA (Hons) Social Work programme.

During the visit the HCPC saw the following groups or facilities:

	Yes	No	N/A
Senior managers of the education provider with responsibility for resources for the programme	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Specialist teaching accommodation (eg specialist laboratories and teaching rooms)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The HCPC met with students from the BA (Hons) Social Work programme, as the programme seeking approval currently does not have any students enrolled on it.

Recommended outcome

To recommend a programme for approval, the visitors must be assured that the programme meets all of the standards of education and training (SETs) and that those who complete the programme meet our standards of proficiency (SOPs) for their part of the Register.

The visitors agreed to recommend to the Education and Training Committee that a condition is set on the programme, which must be met before the programme can be approved.

The visitors agreed that 56 of the SETs have been met and that conditions should be set on the remaining SET.

Conditions are requirements that the education provider must meet before the programme can be recommended for approval. Conditions are set when certain standards of education and training have not been met or there is insufficient evidence of the standard being met.

The visitors have also made a recommendation for the programme.

Recommendations are observations on the programme or education provider which do not need to be met before the programme is recommended for approval. Recommendations are normally set to encourage further enhancements to the programme and are normally set when it is felt that the particular standard of education and training has been met at, or just above the threshold level.

Conditions

3.14 Where students participate as service users in practical and clinical teaching, appropriate protocols must be used to obtain their consent.

Condition: The education provider must submit evidence to demonstrate the programme team are doing all they can to ensure their students' right to confidentiality.

Reason: The documentation submitted prior to the visit included the Students Essential Guide (student's handbook) which provided information for students about consent protocols for practical activities (page 22). Discussion with the students indicated the academic sessions often included service user input and students' often made disclosures of a personal nature. It was described that students could use recording devices for the sessions which may not be obvious to the other students. This could lead to the recording of personal information without knowledge or consent. This concern was raised with the programme team and it was highlighted that students were informed through discussions the expectation that academic sessions are treated as a confidential space and how to manage themselves if they have any concerns of a personal nature. The visitors are aware some students may require a recording device to assist with their learning, they are also aware that students have a right to confidentiality which may be put at risk when recording devices are used. The visitors considered the programme team must ensure students are aware of recording devices present and can request them to be turned off if necessary. The visitors require further evidence that demonstrates the programme team are doing all they can to ensure their students' right to confidentiality.

Recommendations

3.8 The resources to support student learning in all settings must be effectively used.

Recommendation: The visitors suggest the programme team ensure language is consistent when referencing HCPC registration within the programme documentation.

Reason: The visitors noted that references to the HCPC were made throughout the documentation. The visitors noted within the documentation and information provided that there were different ways of stating that the students would have eligibility to apply for registration with the HCPC upon successful completion of the programme. The visitors felt this could lead to confusion over whether they would automatically be processed for registration or not. The visitors suggest the programme team ensure language is consistent when referencing HCPC registration to ensure there are no confusions.
