Executive summary

The Health and Care Professions Council (HCPC) approve educational programmes in the UK which health and care professionals must complete before they can apply to be registered with us. We are a statutory regulator and our main aim is to protect the public. We currently regulate 16 professions. All of these professions have at least one professional title which is protected by law. This means that anyone using the title 'social worker' in England must be registered with us. The HCPC keep a register of health and care professionals who meet our standards for their training, professional skills, behaviour and health.

The visitors' report which follows outlines the recommended outcome made by the visitors on the ongoing approval of the programme at the education provider. This recommended outcome was accepted by the Education and Training Committee (Committee) on 8 December 2016. At this meeting, the Committee confirmed the ongoing approval of the programme. This means that the programme meets our standards of education and training (SETs) and ensures that those who complete it meet our standards of proficiency (SOPs) for their part of the Register. The programme is now granted open ended approval, subject to satisfactory monitoring.

Introduction

The HCPC visited the programme at the education provider to consider major changes proposed to the programme. The University of Bedfordshire and The Frontline Organisation are currently the joint education provider for the programme. The Frontline Organisation have proposed to become the sole education provider of the programme, with the University of Bedfordshire as the validating body. It was also proposed to increase student numbers to 352 per year by 2018. The details of the programme in this report reflect the proposed changes to the programme, and as such a new record for the programme will be created following the decision made by the Education and Training Committee.

The major change affected the following standards - programme admissions, programme management and resources, curriculum, practice placements and assessment. This visit assessed whether the Frontline provision continued to meet the standards of education and training (SETs) and continued to ensure that those who complete the programme meet the standards of proficiency (SOPs) for their part of the Register, within the context of the changes detailed above.

This visit was an HCPC only visit. The education provider and validating body did not validate or review the programme at the visit. The education provider supplied an independent chair and secretary for the visit.

Recommended outcome

To recommend a programme for ongoing approval, the visitors must be satisfied that the programme meets all of the standards of education and training (SETs) and that those who complete the programme meet our standards of proficiency (SOPs) for the relevant part of the Register.

The visitors agreed to recommend to the Education and Training Committee that the programme is approved.

The visitors did not set any conditions for the programme.

Conditions are requirements that the education provider must meet before the programme can have its ongoing approval reconfirmed. Conditions are set when certain standards of education and training have not been met or there is insufficient evidence of the standard being met.

The visitors did not make any recommendations for the programme.

Recommendations are observations on the programme or education provider which do not need to be met before the programme can have its ongoing approval reconfirmed. Recommendations are made to encourage further enhancements to the programme, normally when it is felt that the particular standard of education and training has been met at, or just above the threshold level.
