PRO HIP.			

The following summarises the key outcomes of the approval event and provides reasons for the decision.

CONDITIONS

SET 3. Programme management and resource standards

3.4 There must be an adequate number of appropriately qualified and experienced staff in place to deliver an effective programme.

Condition: The education provider must provide a list of all staff names including whole time equivalents and the roles the staff have on the programme.

Reason: From the documentation that was provided it was unclear as to what staff were teaching solely on the BHSc (Hons) Occupational Therapy programme and what modules and other roles the staff have on the programmes.

SET 4. Curriculum Standards

4.4 The curriculum must remain relevant to current practice.

Condition: The education provider must redraft and resubmit all documentation to reflect current terminology, e.g. 'standards of practice' should be HPC Standards of Proficiency.

Reason: The documentation presented still reflects old terminology and needs to be updated to reflect the correct standards of proficiency to ensure that the students are receiving the correct information throughout their programme

6.1 The assessment design and procedures must assure that the student can demonstrate fitness to practise.

Condition: The education provider must redraft and resubmit the module descriptors to reflect the HPC Standards of Conduct, Performance and Ethics.

Reason: The documentation provided by the education provider reflected the standards of the professional body, but made no reference to the HPC standards.

Deadline for conditions to be met: 17 December 2007

Expected date visitors' report submitted to Panel for approval: 4

February 2008

Expected date programme submitted to Panel for approval: 4

February 2008

RECOMMENDATIONS

SET 5. Practice placements standards

5.6 The education provider must maintain a thorough and effective system for approving and monitoring all placements.

Recommendation: The visitors recommend that the education provider considers a more definite audit tool for practice placements and also provide more formal feedback to the placement providers.

Reason: Although the education provider does have an audit tool it could be more informative and provide better feedback to the practice placement educators.

COMMENDATIONS

The programme has a contemporary theme in terms of graduate employment opportunities and new ways of working, with particular emphasis around the user engagement, contemporary careers and dissertation flexibility.

The nature and quality of instruction and facilities meets the standards of education and training.

We recommend to the Education and Training Committee of the HPC that they approve this programme, subject to any conditions being met.
