

HCPC Diversity Data Report 2021: dietitians

Introduction

The Health and Care Professions Council (HCPC) aims to be recognised as an organisation that actively upholds and promotes best practice in equality, diversity and inclusion. Improving the quantity and quality of our diversity data is an important step towards achieving this aim.

Between December 2020 and March 2021, we collected diversity data in a voluntary survey from 51,710 registrants across 15 health and care professions. This represents 18% of the HCPC Register and a three-fold increase in responses as compared with the 2019/20 survey.

This factsheet provides the key EDI information for the dietitians and how the demographics of this group compare to the demographics of HCPC registrants overall.

Profession:
dietitians

Total registered
dietitians:
10,187¹

Number of dietitians who
responded to the survey:
1,968

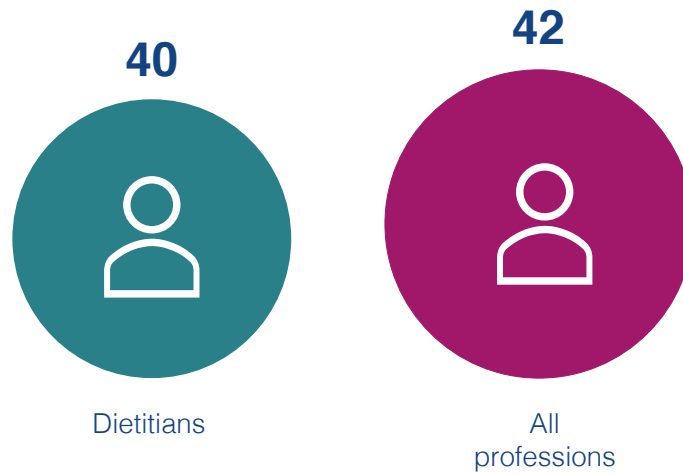

Key findings

- Dietitians had the joint lowest average age (40)
- Dietitians reported the joint highest figure for respondents who identified themselves as falling under the protected characteristic of pregnancy and maternity (8%)
- Dietitians reported the second highest percentage (93%) of those who identified as female and consequently, the second lowest percentage (6%) of those who identified as male.

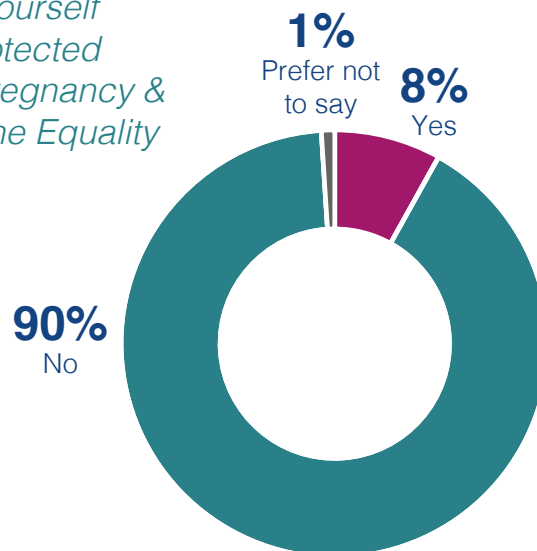

1. Total taken from age group data.

Dietitians - Key findings

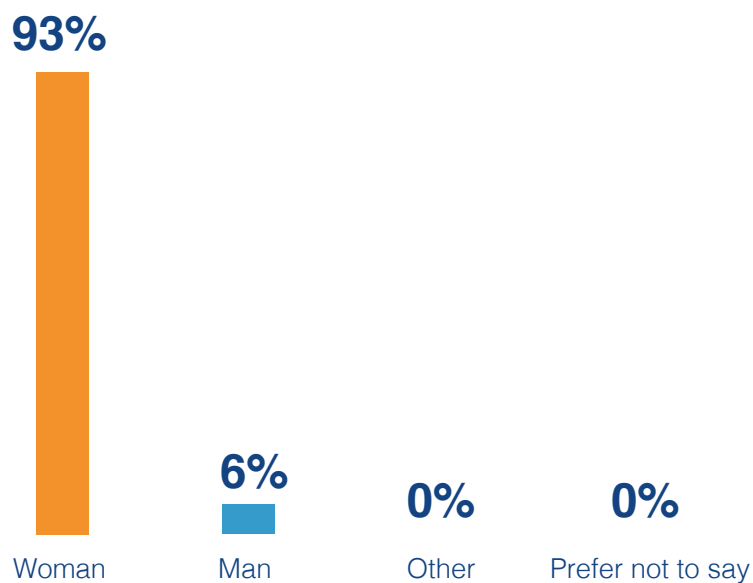

Age

“Do you consider yourself to fall under the protected characteristic of ‘pregnancy & maternity’, as per the Equality Act 2010?”

Gender

Age

Count and proportion of respondents by age group:

	Under 25		25-34 years		35-44 years		45-54 years		55-64 years		65 and over		Average age
	Count	%	Count	%	Count	%	Count	%	Count	%	Count	%	
Dietitians	390	4	3,334	33	3,206	31	2,114	21	1,022	10	121	1	40
All professions	11,853	4	78,796	27	84,390	29	65,492	23	40,694	14	7,956	3	42

Disability

Count and proportion of respondents by disability:

	Disabled		Not disabled		Prefer not to say	
	Count	%	Count	%	Count	%
Dietitians	125	6	1,804	93	18	1
All professions	4,188	8	47,005	91	523	1

Ethnicity

Count and proportion of respondents by ethnic origin:

	Asian		Black		Mixed		White		Other		Prefer not to say	
	Count	%	Count	%	Count	%	Count	%	Count	%	Count	%
Dietitians	180	9	69	4	54	3	1,582	81	50	3	12	1
All professions	3,993	8	2,368	5	1,246	2	42,755	83	894	2	461	1

Gender

Count and proportion of respondents by gender:

	Woman		Man		Other		Prefer not to say	
	Count	%	Count	%	Count	%	Count	%
Dietitians	1,814	93	123	6	6	0	5	0
All professions	39,146	76	12,175	24	174	0	7	0

Count and proportion of responses to “Do you consider yourself to fall under the protected characteristic of ‘pregnancy & maternity’, as per the Equality Act 2010?”

	Yes		No		Prefer not to say	
	Count	%	Count	%	Count	%
Dietitians	165	8	1,761	90	21	1
All professions	3,098	6	48,088	93	529	1

Religion

Count and proportion of respondents by religion or belief:

	Buddhist	Christian	Hindu	Jewish	Muslim	No religion	Other	Sikh	Spiritual	Prefer not to say
Dietitians	1%	47%	3%	1%	3%	37%	2%	1%	4%	3%
All professions	1%	44%	2%	1%	3%	39%	3%	1%	4%	3%

Sexual orientation

Count and proportion of respondents by sexual orientation:

	Lesbian, Gay or Queer (LGQ) ²		Heterosexual		Other		Prefer not to say	
	Count	%	Count	%	Count	%	Count	%
Dietitians	54	3	1,799	92	52	3	42	2
All professions	2,254	4	46,558	90	1,804	3	1,094	2

Caring responsibilities

Count and proportion of respondents by caring responsibility:

	Yes		No		Prefer not to say	
	Count	%	Count	%	Count	%
Dietitians	683	35	1,246	64	18	1
All professions	18,351	35	32,746	63	617	1

Country of work

Count and proportion of respondents by country of work:

	England		Northern Ireland		Scotland		Wales		Other	
	Count	%	Count	%	Count	%	Count	%	Count	%
Dietitians	1,528	78	60	3	161	8	97	5	101	5
All professions	42,169	82	1,348	3	3,798	7	2,302	4	2,093	4

2. The term "LGQ" is used throughout the report to represent the categories: Gay Man, Gay woman/lesbian, Queer, and Prefer to self describe (where gay or queer or lesbian was indicated). This was used to ensure data remain unidentifiable, particularly where small cell counts were noted.

Work setting

Proportion of respondents by primary work setting:

Work Setting	Dietitians	All professions
Adult social care	0%	2%
Community service	17%	9%
Higher education/university/academia/research	5%	3%
Independent or private healthcare provider (clinic/business)	5%	11%
Independent or private healthcare provider (hospital/acute)	1%	3%
NHS Acute/ hospital/ secondary care	55%	35%
NHS Mental Health service	4%	6%
Other	9%	10%
Primary care/ general practice	3%	2%
Schools (primary/secondary/special)	0%	4%

Count and proportion of respondents by work pattern:

	Full-time		Part-time		Flexible hours/ Zero Hour		Not currently working		Prefer not to say	
	Count	%	Count	%	Count	%	Count	%	Count	%
Dietitians	1,154	59	668	34	62	3	51	3	12	1
All professions	32,236	62	15,825	31	2,126	4	1,200	2	332	1

Education

Count and proportion of respondents by type of schooling:

	State run or funded (all types)		Independent (all types)		Prefer not to say		I don't know	
	Count	%	Count	%	Count	%	Count	%
Dietitians	1,151	80	352	18	27	1	17	1
All professions	42,523	82	7,931	15	761	1	504	1

Parental or guardian education attainment

Count and proportion of responses to the question “when you were 18, had any of your parents or guardians completed a university degree course of equivalent (e.g., BA, BSC, or higher)?”

	Yes		No		I don't know		Prefer not to say	
	Count	%	Count	%	Count	%	Count	%
Dietitians	762	39	1,153	59	21	1	11	1
All professions	17,949	35	32,719	63	637	1	405	1
